C.L.U.E. (Color Location Ultimate Experience) intervention

robbinschields inhabits The Physics Room this Saturday, 5 December. Responding to the architecture of the gallery as site, this live presentation of their collaborative project C.L.U.E. (Color Location Ultimate Experience) consists of a series of improvisational movement scores cycling through nine colours.

The durational intervention has no imposed beginning, middle or ending structure and viewers are welcome to come and go throughout the 5-hour experience.
